

MEEZA on a Special Mission to Ensure Business Continuity

MEEZA's existing clients to learn how RECaaS can guarantee their business survival during a crisis

Doha – Qatar, September 02nd, 2019: MEEZA, Qatar's prominent end-to-end Managed IT Services & Solutions Provider, is planning to hold a series of roundtables for its existing clients in the 1st half of September to introduce them to the Recovery as a Service (RECaaS) model.

Recovery as a service (RECaaS) is a cloud computing and backup service that uses cloud resources to protect applications, digital assets and data from disruption caused by disaster. It gives an organization a complete system backup that allows for business continuity in the event of system failure. It is done by the replication and hosting of physical or virtual servers in another location to provide failover in the event of a man-made or natural catastrophe.

"As the leading cloud computing services provider in Qatar and the MENA region, MEEZA is pleased to host a series of round tables to inform our Qatar-based clients about the newly launched Recovery as a Service solution. Business continuity, which is an important goal of any organization, is one of the main features of our RECaaS solution. We value our relationship with our clients and partners and believe that insuring their business continuity is a precursor for their prosperity. In line with Qatar National Vision 2030, MEEZA will continue to support its Qatar-based clients to achieve their potential empowering young Qatari talents and underpinning Qatar's journey to transform itself into a knowledge-based economy", said, Ahmad AL-Muslemani, Chief Sales and Marketing Officer, MEEZA.

"MEEZA's unique, centralized and unified Business Cloud platform is hosted across multiple Tier III data centers based in Qatar. Our subscription based RECaaS solution comprises of Disaster Recovery as a Service (DRaaS) with continuous real time, byte-level replication, automated full or partial failover, snapshot and CDP Features with multiple recovery point and time objectives. Backup as a Service (BaaS) provides an extremely cost-effective backup and archiving solution hosted within the MEEZA local cloud" said, David Wilds, Expansion Operations Executive, MEEZA Expansion.

MEEZA Expansion is a fast-growing player in cloud computing services, both in regional and international markets. It continues to innovate and offer cost effective IT solutions and services to help its clients focus on their core business.
