

MEEZA Expansion team signs agreement with Turkish technology giant NGN at QITCOM 2019

Doha – Qatar, 30 October 2019: MEEZA, Qatar based managed IT services provider, signed a partnership agreement today during QITCOM 2019, with Turkish enterprise NGN, a leading technology group operating in Turkey and Middle East.

MEEZA Expansion team and NGN started building a strategic relationship in 2017. The partnership is set out to combine business synergies between both companies, in relation to data centre and managed IT services. NGN and MEEZA will collaborate to allow Qatari and Turkish organizations the opportunity to subscribe to a wide range of services. The partnership will also offer organizations from both countries' access to data centre and IT services to each other and collective clients.

Mrs. Ghada Philip El Rassi, Executive Board Member, MEEZA, and Chief Executive Officer, MEEZA Expansion said: "We are delighted with the partnership agreement signed today, and are proud to be working with a trusted technology partner that has been a leading enterprise for more than a decade. The partnership agreement between us and NGN provides a framework for both companies to leverage one another's capabilities and local market knowledge for mutual success. We look forward to offering the Qatari market Recovery as a Service (REaaS) solutions in Turkey and bringing REaaS clients from the Turkish market to Qatar."

Mr. İnanç Erol, Chairman of Board of Directors, at NGN, said: "We are honored to announce our collaboration with MEEZA, Qatar's prominent end-to-end Managed IT Services & Solutions Provider, to become our trusted partner in the region. Our partnership with MEEZA Expansion will allow us to create added value for our customers in Qatar and Turkey & help accelerate the growth of both countries' technology economy."

NGN seamlessly manages the entire IT operational burden of its customers with its end-to-end system integration, data centre, cloud and managed service solutions. Listed as one of the "Top Performing IT Companies" and awarded "Top Data Backup & Storage Systems Integrator", NGN is committed to delivering top-quality technology solutions and professional services that provide true business value to its customers.

In 2018, NGN launched its state-of-the-art data centre facility, Star of Bosphorus (SOB). This Tier III designed facility includes seismic isolation protection technology for the entire facility. The SOB data center is the most advanced data center in Turkey with its technology, experienced team and international certifications; and a unique facility for enterprises that make reliability and uptime their number one priority.

MEEZA leverages three Qatar based Tier III certified data centres, known as M-VAULTs offering a guaranteed uptime of 99.98%. These facilities are designed and built to comply with the most exacting international standards, enabling businesses to benefit from state-of-the-art facilities at a fraction of the cost associated with building a purpose-built production facility.

MEEZA Expansion team, strives to bring MEEZA's unique brand and value offering to the world, by expanding its services into regional and international markets. MEEZA is a fast-growing player in cloud computing

services worldwide. It continues to innovate and offer cost effective IT solutions and services to help its clients focus on their core business.

The signing ceremony took place on the sidelines of QITCOM 2019. MEEZA is a proud pearl sponsor for this year's QITCOM event, which is running until the 1st of November 2019, at the Qatar National Convention Center, under the theme of "Safe, Smart Cities".
