Log Management Services

Log Management Service provides a critical service for client audit trail and regulatory compliance requirements.

Industry standards, such as ISO 27001 and PCI-DSS, mandate businesses to store logs in a forensically-sound manner and readily available for audit reporting.

Supports an organisation's log retention policy and compliance requirements on log collection, storage and reporting without the management overhead and capital investment required for this enterprise solution.

KEY FEATURES

Tamper-Proof Raw Log Storage

- Machine generated raw logs are time-stamped and stored in a secured manner in the storage appliance

Log Collection

- Collection of logs from different data sources

Log Analysis

- Support for in-depth investigation and log forensics

Log Retention

- Provides long-term storage of data based on client requirements
 - o Online retention of one month, as a default
 - o Offline retention of one year, as a default

Log Reporting

- Metrics and trending of events
- Standard reports, including some tailored to specific security standards, with customised reporting available to meet unique client requirements

WHY MEEZA

Value Add

- Data Resides in Qatar/GCC
- Client Focus on Core Business
